

Team Feedback: Xavier Jacques

Role: Grid Master, Spacing, Responsive Design

Quick Summary

Xavier was the structure and consistency expert! He was responsible for making sure the site looks perfect whether you view it on a phone, tablet, or desktop. His work on the **grid, spacing, and layout** is the backbone of the site's professional appearance.

Key Wins

- **Responsive King:** Successfully implemented the **Bootstrap grid** and custom CSS to make the entire site fully **responsive**. That means no ugly stretching or broken layouts!
- **Clean Visuals:** Meticulously handled **image and content spacing**, which is why everything looks so neat and polished.
- **Aesthetic Input:** Provided input and assistance on the final **Fonts and Logos** with Kellen.

Next Steps (Future Focus)

- The layout is locked down—amazing job! Now, try adding some fun, interactive features using JavaScript to make the user experience even better.
- Consider sharing some of your grid and spacing techniques with the rest of the team in a quick session!
